SUMMARY

I am a passionate Information Technology student with a solid foundation in programming, web development, and machine learning. Experienced in creating innovative solutions like a Face Recognition Attendance System and a Medicare Portal. Proficient in Python, HTML, CSS, JavaScript, and MySQL. Known for strong problem-solving skills, hands-on project development, and a commitment to continuous learning. Seeking opportunities to leverage my skills in developing impactful software solutions.

TECHNICAL SKILLS

Programming Languages: C, C++, Python

Web Development: HTML 5, CSS 3, JavaScript

Database: MySQL

Software: figma, Xampp, Git

PROJECTS

Face Recognition Attendance System

Python GUI Project

Python, Tkinter, OpenCV

- Developed a Python GUI application for taking student attendance through face recognition.
- Implemented a system to register student details and store them into database
- Trained facial recognition models using student data samples to ensure accurate identification.
- Integrated functionalities for saving and modifying student attendance records.

Medicare Portal

Website

HTML, CSS, PHP, MySQL

- Developed an online appointment scheduling system for clinics and hospitals, facilitating patient-doctor interactions.
- Implemented three user roles (Administrator, Doctor, Patient) with distinct functionalities for managing appointments and profiles.
- Enabled patients to browse doctor schedules, request appointments, and manage their accounts.
- Provided administrators with tools to manage doctor profiles and schedules, while allowing doctors to view appointments and patient details.

EXPERIENCE

Front-End Web Development Intern

Jun 2023 – July 2023

IBM SkillsBuild

Remote

- Learned HTML, CSS, and JavaScript through practical application.
- Developed a fully functional e-commerce website for grocery shopping.
- Technologies used: HTML, CSS, JavaScript

Machine Learning Intern

July 2022 – Sept 2022

Quinnox Consultancy Services Limited

Mumbai

- Utilized Jupyter for data visualization and exploration, and developed machine learning models based on the insights gained.
- Created APIs for the models using Flask and tested them on Postman.
- Technologies used: Python, Jupyter, Flask, Postman

EDUCATION

Vasantdada Patil Pratishthan's College of Engineering

Sion, Mumbai

Bachelor's Degree in Information Technology, 8.09 CGPA

Pursuing

Bharati Vidyapeeth Institute of Technology (Polytechnic)

Kharghar, Navi Mumbai

Diploma in Computer Technology, 85.43%

2019 - 2022
